codeor

Ha pasado más de medio siglo desde que D. Modesto Pérez Fernández creara su taller e iniciara la producción de calzado hecho a mano.

En el, su hijo y fundador de CODEOR, D. Celso Pérez Gutiérrez, entró en contacto con la sabiduría del buen hacer artesanal y adquirió una sólida base de la que nacerían colecciones como CONFORTINA® en 1992, que en pocos años se convierte en la primera marca en el mercado de su especialidad. Sus diseños CLASIC, UNISEX, MYCODEOR® y posteriormente CODEOR SEGURIDAD han requerido nuevas instalaciones e incorporar tecnología puntera de forma continuada.

En la actualidad, incorporada ya la tercera generación de la familia, los productos CODEOR están presentes en países como Australia, USA, UK, Japón u Oriente medio y son referentes de la excelencia en el calzado para profesionales.

More than half a century has passed since D. Modesto Pérez Fernández created his workshop and initiates the production of hand-made shoes.

His son and founder of Codeor, D. Celso Pérez Gutiérrez came in contact with the artisanal wisdom and acquired a solid base that would be proved with the development of collections like CONFORTINA in 1992, which in a few years becomes in the first brand in the market of its specialty. Their designs CLASIC, UNISEX, MYCODEOR and subsequently CODEOR SEGURIDAD require new facilities and new technology implemented in just 25 years.

Nowadays, incorporated the third generation of the family, CODEOR products are present in countries such as Australia, USA, UK, Japan or the Middle East and being a reference in the professional footwear.

codeor® es el calzado
para profesionales
que se saben cuidar.

La innovación de materiales,
la ergonomía de los diseños
y la calidad de fabricación
tienen un único objetivo:
su comodidad.

Codeor is the footwear for profes-
sionals who know how to take care
of themselves.

The innovation of materials, the er-
gonomics of the designs and the
quality of the manufacture have a
single goal: your comfort.

WALKING ON BUBBLES

¿Por qué codeor® es la mejor elección?

Por el SISTEMA DE FABRICACIÓN

Inyección directa al corte: **corte y piso en una sola pieza** sin cosidos ni pegados

Fabricado según normativas **EN ISO 20347 y EN ISO 20345**

Por su ERGONOMÍA

Mayor confort térmico: eliminación del 90% del calor que genera el pie

Mayor confort de marcha sobre burbujas de aire con efecto amortiguador

Mejor diseño plantar: reparto equilibrado del peso

Elección de **horma ancha para no presionar el pie**

Por DISEÑO

Equilibrado y elegante

Por DURABILIDAD y por lo tanto, mejor precio

Mayor resistencia al desgaste y a la ruptura

Por los MATERIALES

Corte

Microfibra con las características técnicas de la piel natural

Antitranspiración
Antibacteriano
Lavable en lavadora
Más ligero
Ecológico
No envejece ni se cuartea / test de flexión: 150.000 veces
Totalmente impermeable
Absorción de agua
Resistente al desgarro / test: valor 155 [valor de referencia 120]
Resistente agentes químicos / test sobre 15 químicos [acetona, diclorometano, tolueno...]

Plantilla

Antiestática
[modelos MyCodeor]
Microfibra que actúa como **secante**
Tratamiento "Thermy-tex" antibacterias que **inhibe el mal olor**
Base de **espuma de poliuretano de baja densidad: gran confort**
[modelos Sirio, Giocco, Attiva]
Tratamiento "Outlast" **regulador térmico**
Carbón activo **antiolor**

Piso

Poliuretano expandido fusión de dos componentes **con estructura de microceldas o microburbujas**
Mayor confort
Amortiguador
Aislante térmico
Ligero
Flexible
Antideslizante: resistencia antirresbalamiento 0,26 [la exigencia normativa es 0,15]
Antiestático
Resistente al desgaste y ruptura
Resistencia a la flexión / test: se practica en la suela un corte de 1 mm y se flexiona 30.000 veces no pudiendo superar los 4 mm

Why Codeor® is the best option?

THE MANUFACTURE SYSTEM

Direct injection through the **sole and upper without stitching or gluing**

Certified according to the ISO **EN ISO 20347** and **EN ISO 20345** standards

ERGONOMICS

Higher thermal comfort: eliminates 90% of heat accumulation generated in the feet

The **sole material** provides you **a walking on bubbles effect**

The **last-waist** allows for **a balanced distribution of body weight**

A broad last which no pressures the foot

DESIGN

Equilibrated and smart

DURABILITY and therefore the price

Very resistant to wear and tear

The MATERIALS

Upper Microfiber with the technic properties of the natural leather

Breathable
Antibacterial
Washable in the washing machine
Lighter
Environmental friendly
Does not age or split / Flexion test: 150.000
Totally waterproof
Resistant to wear and tear / test value 155 (reference value 120)
Resistant to chemical agents / test made over 15 chemical products (acetone, toluene...)

Insole Antistatic
[MyCodeor Models]
Microfiber that plays as **absorbent**
Thermy-Tex antibacterial treatment that **eliminates bad odour**
Base of polyurethane's foam of low density: **high comfort (Sirio, Giocco, Attiva models)**
Outlast treatment: **thermic regulator**
Active carbon **anti-odour**

Sole Expanded polyurethane, fusion of two components **with a structure based on microcells and microbubbles.**

Higher comfort
Provide shock absorption
Thermic insulation
Light
Flexible
Non slip: non slip resistance of 0,26 (the normative demand is 0,15)
Anti-static
Resistant to wear and tear
Resistant to the flexion / test: a cut of 1 mm is made in the sole and is flexed 30.000 times without overcome 4 mm
